1. Svi dijelovi tuš kabine mogu se redovno čistiti neutralnim sredstvima (npr. deterđent, sapun, voda itd).
2. Ne koristite agresivna sredstva kao što su alkohol, benzin, razrijeđivač, aceton itd.
3. Jače nečistoće možete očistiti tako što ćete pamučnom krpom utrljati pastu za zube na nečisto područje koje ćete zatim isprati vodom
